

Program Winter Term 2013/2014

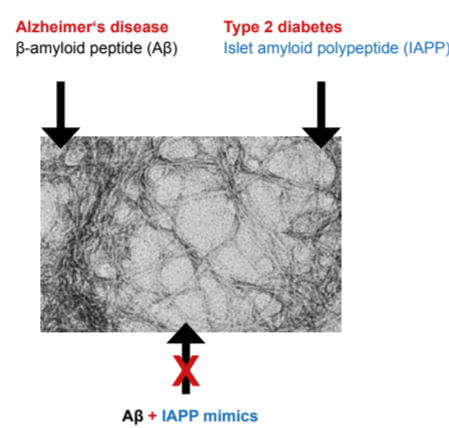

18. November 2013

Dr. Ute Scholl

Heinrich-Heine-Universität Düsseldorf, Germany

Invited by Ch. Fahlke, ICS-4

Primary Aldosteronism – New Insights from Genetic Studies and Potential Clinical Applications

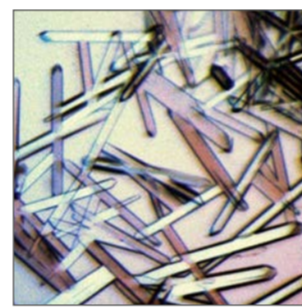

25. November 2013

Prof. Dr. Aphrodite Kapurniotu

Technische Universität München, Germany

Invited by D. Willbold, ICS-6

Cross-amyloid inhibitors of protein aggregation in Alzheimer's disease and type 2 diabetes

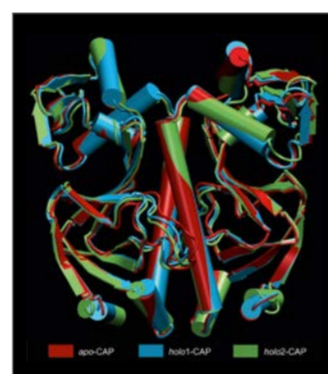

9. December 2013

Prof. Dr. Frank Schreiber

Universität Tübingen, Germany

Invited by J. Dhont, ICS-3

Manipulating protein interactions with multivalent ions: Aggregation, crystallization, and diffusion

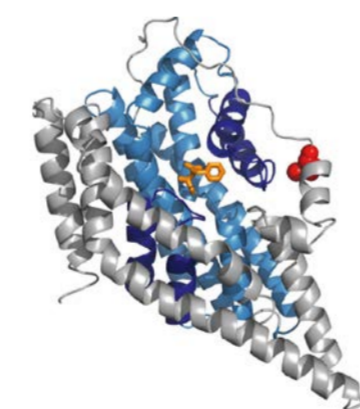

16. December 2013

Prof. Dr. Tom McLeish

Durham University, United Kingdom

Invited by D. Richter, ICS-1; JCNS-1

Global Low Frequency Protein Motions Carry Signals: Allosteric Regulation of CRP/FNR family transcription factors

10. February 2014

Prof. Dr. Ch. Fahlke

ICS-4

Glutamate transporter-associated anion channels: molecular mechanisms, physiology and pathophysiology

The BioSoft Colloquium takes place on Mondays at 14.00 p.m. in the PGI lecture hall (build. 04.8, entrance E2; 2nd floor, room 365).
