Conducting research for a changing society: This is what drives us at Forschungszentrum Jülich. As a member of the Helmholtz Association, we aim to tackle the grand societal challenges of our time and conduct research into the possibilities of a digitized society, a climate-friendly energy system, and a resource-efficient economy. Work together with around 6,800 employees in one of Europe’s biggest research centres and help us to shape change!

We look forward to receiving your application until 30.01.2022 via our Online-Recruitment-System! Questions about the vacancy? Get in touch with us by using our contact form. Please note that for technical reasons we cannot accept applications via email.

The Bernstein Coordination Site (BCOS), located in Freiburg, is a branch office of the Forschungszentrum Jülich and part of the Institute of Neuroscience and Medicine - Computational and Systems Neuroscience (INM-6). BCOS is the national and international representation of the Bernstein Network Computational Neuroscience (https://bernstein-network.de/en/). It supports researchers in the Bernstein Network e.g. by organizing the annual Bernstein Conference and other networking events, representing the network at international scientific conferences and offering central public relation measures.

We are looking to recruit a

**Officer for Science Communication**

**Your Job:**
- Identifying current, neuroscientifically relevant topics and editing for multimedia usage/disposition
- Writing various texts and press releases on research in the Bernstein Network in German and English
- Maintenance of the Bernstein Network website and corporate design
- Conception and production of short films displaying research in the Bernstein Network
- Preparation and postproduction of interviews (e.g. written, podcast, short films)
- Preparation and moderation of press conferences
- Development of PR and communication strategies
- Developing promotion materials for the Bernstein Network
- Maintenance of Social Media platforms (Twitter, LinkedIn, Vimeo)
- Supporting network members with PR and communication issues

**Your Profile:**
- University degree (Master) preferably in neuroscience or related fields, ideally plus doctorate
- Proven expertise in writing articles on research for a lay audience
• Excellent proficiency using Adobe Creative Suite and Word Press
• Excellent writing and communication proficiency in German and English
• Interest in layouting and designing
• Very independent, analytical and structured way of working with high quality awareness
• Excellent communication skills, excellent capacity for teamwork and cooperation
• Experience with documentary films
• Willingness to travel frequently within Germany and occasionally internationally

**Our Offer:**
We work on the very latest issues that impact our society and are offering you the chance to actively help in shaping the change! We support you in your work with:
• Cutting-edge research environment with an interdisciplinary and international perspective
• A creative team with an open and appreciative working culture
• The possibility to work flexibly (in terms of location), e.g. working from home
• Comprehensive training courses and individual opportunities for personal and professional further development
• Extensive company health management
• Ideal conditions for balancing work and private life, as well as a family-friendly corporate policy
• Full-time position with the option of slightly reduced working hours and 30 days of annual leave
• Targeted services for international employees, e.g. through our International Advisory Service

We offer you an exciting and varied role in an international and interdisciplinary working environment. The position is initially for a fixed term of 2 years, with possible long-term prospects. Salary and social benefits in conformity with the provisions of the Collective Agreement for the Civil Service (TVöD).

**Place of employment:** Freiburg

Forschungszentrum Jülich promotes equal opportunities and diversity in its employment relations.
We also welcome applications from disabled persons.
