

JPPS Seminar Maastricht University/ Brightlands Venlo

Tuesday 10 June 10:30-11:30

Building 14.6 room 241

Dear all,

It is our pleasure to invite you to the following two talks in the Juelich Plant Science seminar series:

10:30 Prof. Dr Jan van den Berg

*Vegetables: fun and vitamins*

11:00 Prof. Dr. Martin Bader

*Pinpointing the Shift from Environmental to Stomatal Control of Transpiration*

Prof. Dr Jan van den Berg and Prof Dr. Martin Bader are both appointed at Maastricht university, Jan in [2020](#) and Martin [recently](#) and associated with [Brightlands Campus Greenport Venlo](#). Jan is the chair of Envirogenetics for one day a week and the rest of the week at BASF vegetables seeds. Martin full time chair of Ecology and Biodiversity. Jan will provide us with an insight into Brightlands Future Farming institute and the combination with his scientific interests. Martin will present us his recent findings on the water regulation of plants.

11:30 joint lunch in see casino followed by visit to IBG-2 and meeting with selected researchers. If you would like to meet Jan and or Martin (and I did not contact you yet) please let me Onno know by email and he will plan it.

Looking forward to seeing you Tuesday ,

Roland and Onno
