- Enabling the prediction of natural disasters.

- Advancing cancer identification and screening.

- Aiding the creation of reliable weather forecasts.

- Solving problems in plasma physics.

Today, those are just a fraction of the things artificial intelligence can do. **AI has the power to accelerate groundbreaking discoveries and aid us in building a better tomorrow faster – as long as we share the invaluable knowledge we possess with others.**

The **Helmholtz AI Conference: AI for Science** invites you to share and further explore the transformative power of AI in science, showcasing the latest research on applied AI solutions.

REGISTRATION IS OPEN

Spaces are limited - join the **Helmholtz AI Conference: AI for Science 2024** by registering on our website **www.haicon24.de** - simply scan the QR code below!

HAVING GRAND THINGS TO SHARE?

You have the chance to take an active part in the **Helmholtz AI Conference: AI for Science** - **submit an abstract for a poster or a talk until April 7, 2024.** For more information regarding contributions and submissions, please visit our website **www.haicon24.de**.

AI FOR SCIENCE
HELMHOLTZ AI CONFERENCE

12 - 14 JUNE, 2024
CCD CONGRESS CENTER DÜSSELDORF

EXPLORE THE LATEST RESEARCH ON APPLIED AI THAT WILL HELP US SOLVE THE GRAND CHALLENGES FACING SOCIETY.

RESHAPING

RESEARCH

Unravel the capabilities of AI to reshape a wide range of scientific research areas through 60 in-depth talks, special keynote talks, a poster showcase and plenty of networking opportunities. **Secure your spot and register at our conference website!**

KEYNOTE SPEAKERS INCLUDE:

Kyle Cranmer

Director of the Data Science Institute at University of Wisconsin -Madison, Professor of Physics, Statistics and Computer Science.
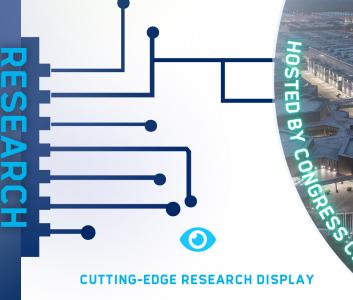

Smita Krishnaswamy

Associate Professor in Computer Science and Genetics at Yale University.

SPECIAL GUEST:
At the conference dinner on June 13, Otmar D. Wiestler, President of the Helmholtz Association will join as an official dinner speaker.

HOSTED BY CONGRESS CENTER DÜSSELDORF

CUTTING-EDGE RESEARCH DISPLAY

Learn about the latest developments in **applied AI for science** changing the course of research through a variety of talks and sessions.

NETWORK WITH DOMAIN EXPERTS

We bring together **AI researchers, consultants, and industry representatives**, as well as students in related fields facilitating wide-spread exchange.

ATTEND STIMULATING WORKSHOPS AND SOCIAL EVENTS

Beside the insightful sessions and talks, you are invited to attend our **second Unconference edition**, **Science Slam**, our **World Café** and **Prologue Day** at Forschungszentrum Jülich, enriching your conference experience.

The Helmholtz AI team at Forschungszentrum Jülich invites you for a Prologue Day on campus, for a full range of satellite events that go beyond the program of the main conference. **Delve deeper into specific topics of applied AI, collaborate, and get hands-on learning experiences.**
