FURTHER INFORMATION

MAINTENANCE HANDLING

- JSC systems go on maintenance for any of the following reasons:
 - JUST (storage cluster) needs maintenance
 - Compute node updates (OS and/or FW and/or configuration changes)
 - Admin node updates (OS and/or FW and/or configuration changes)
 - Emergencies
- Frequency
 - Depends on pending issues
 - Typically decreases as system ages
- Days and duration
 - Typically on Tuesdays
 - Whole working day
 - Announced with at least 1 week in advance
- Communicated through **MOTD** and **status page**
