

Multiscale Simulation Methods in Molecular Sciences

Winter School
Forschungszentrum Jülich
2 - 6 March 2009

J. Grotendorst
N. Attig
S. Blügel
Forschungszentrum Jülich
D. Marx
Ruhr-Universität Bochum

Multigrid Methods
Coarse Graining Strategies
Ab Initio Molecular Dynamics
Tight Binding Approximations
Quantum/Classical Hybrid Methods
Mesosopic Simulations of Soft Matter
Multiscale Simulations of Magnetic Materials
