

# UFTP

## HIGH PERFORMANCE FILE TRANSFER

- UFTP is a data access and file transfer solution
- Standards compliant (REST/JSON, FTP)
- Flexible authentication and user mapping
- Federated identity management

### Use Cases

- Powerful data transfer tool
- Many authentication and user mapping options
- Flexible integration of HPC data access into community applications via RESTful APIs and FTP compliance
- Sharing of big data sets with external users

**Winner:**  
**Most Systemic Approach Award**

**SC Asia 2020**  
**Data Transfer Challenge**
